  BA.ED, Education and French

- **ALX Africa -** Online   **August 2024 - October 2024**
  Virtual Assistant

WORK EXPERIENCE

Junior Frontend Engineer   **January 2024 - Present**
Bloom Digitale – Remote

- Developed and maintained responsive, multi-page websites using ReactJS, HTML, CSS, Tailwind CSS, and JavaScript.
- Collaborated with design and content teams to translate Figma designs into pixel-perfect interfaces and consistent brand visuals.
- Built and styled various page components including landing pages, service pages, testimonials, and contact forms.
- Implemented reusable components and used component-based architecture for scalable UI development.
- Integrated scroll animations, interactive elements, and responsive layouts to improve user experience across devices.
- Conducted cross-browser testing, fixed layout inconsistencies, and optimized pages for performance and accessibility.

Frontend Web Development Tutor   **June 2022 - October 2022**
ITech Hub – Lagos, Nigeria

- Taught HTML, CSS, Tailwind CSS, and Git to beginner learners.

- Mentored students on responsive web design principles.
- Reviewed student projects and provided structured feedback.

PROJECT EXPERIENCE

Bloom Digitale Website (Live Project)   **May 2025**

Role: Frontend Developer.

View Project

- Rebuilt and modernized the website interface using ReactJS and CSS, focusing on clean UI and smooth user flow.
- Integrated responsive hero sections, testimonial sliders, and service listings to communicate value propositions clearly.
- Utilized component-based architecture in React to improve code reusability and maintainability.
- Applied responsive design principles to ensure the site renders properly across devices and screen sizes.
- Managed animations and transitions for enhanced interactivity and polished user experience.
- Collaborated with design feedback to iterate and refine layouts, improving usability and alignment with the brand identity.
- Optimized performance by organizing code for scalability and reducing page load times

Quikkash Website (Live Project)   **November 2024**

Role: Frontend Developer.

View Project

- Translated Figma/UX designs into fully responsive and visually appealing web pages using HTML, CSS and JavaScript.
- Built and structured key sections across multiple pages including Home, Services, About, and Contact, ensuring consistent branding and layout.
- Implemented interactive UI components such as navigation menus and CTAs to enhance user engagement.
- Ensured mobile responsiveness and cross-browser compatibility through media queries and flexible layouts.
- Worked closely with the design and backend teams to align content structure, functionality, and branding.
